Krishnavil
Global LLP

ABOUT US

At Krishnavil Global LLP, we are dedicated to delivering the finest Coffee Beans and Instant Coffee Powder products from India to the world. With a passion for quality and a commitment to excellence, we specialize in sourcing, processing, and exporting products that meet the highest international standards.

We offer premium washed and unwashed Arabica & Robusta green coffee beans, sourced from plantations situated at elevations between 700 to 1,200 meters. These regions receive an annual rainfall of 1,000 mm to 2,500 mm, creating ideal conditions for cultivating exceptional coffee.

Grown entirely under natural shade, our coffees develop a mild profile, low in acidity yet rich in exotic body and fine aroma. Every cup brings a harmonious balance of aroma, flavor, body, and acidity that true coffee lovers will appreciate.

We supply green coffee in both washed and unwashed forms, with screen sizes ranging from 7.5 mm to 4 mm, available in multiple Arabica and Robusta grades.

We believe in building long-term relationships with our Customers, offering not just products, but complete solutions from consistent quality supply to flexible packaging options and timely delivery. Our operations are driven by integrity, transparency, and customer satisfaction.

With strong sourcing networks, modern infrastructure, and a dedicated team, Krishnavil Global LLP is your reliable partner for global trade. Wherever you are in the world, we ensure that the taste and authenticity of India reach your shelves.
